CICO WALL PUTTY

DESCRIPTION	CICO WALL PUTTY is a water resistant polymeric putty for concrete/mortar walls and ceilings. It has superior adhesive strength, durability and increases life of paints. It does not require water curing. It renders a smooth and durable surface suitable for all kinds of paint.
USES	It serves as filler/leveler in the paint system and enhances durability.
FEATURES	CICO WALL PUTTY provides waterproof surface excellent smoothness, good adhesion, good breathing properties, seals porosity for uniform deposition of finished paint.
APPLICATION DATA	<p>Surface preparation</p> <p>All the loosely adhering and projecting material from the wall should be removed with the help of wire brush, putty blade or emery stone. The wall surface should be moistened with sufficient quantity of water to saturate the surface as well as to clean the dust/dirt.</p> <p>Application</p> <p>Apply first coat of CICO WALL PUTTY uniformly on already cleaned and moistened surface with help of putty blade or trowel. Allow the surface to dry for at-least 2-3 hours and then apply 2nd coat of putty if required to match with the adjacent area. Allow it sufficient time to dry completely. After complete drying of the surface, if needed the surface should be rubbed with fine waterproof emery paper. The surface is now ready for painting.</p>
PRECAUTION	It should not be applied on surface with flowing water. The water leakage should be first stopped by CICO system of waterproofing.
PACKING	Available in 1 kg, 5 kg & 20 kg. Can be tinted to any desired colour by universal strainer.
SHELF LIFE	6 months in unopened condition.
STORAGE	Store in cool & dry place. Keep container, airtight during handling/storage. Protect from extreme climatic condition.
HEALTH & SAFETY	Non inflammable and non-toxic. In case of skin contact, wash thoroughly with soap & water.

PRODUCT INFORMATION

Although the basic formulation of our products generally remains unchanged. Production refinements arising from continuing research and evaluation program may occasionally results in marginal changes in properties.

TECHNICAL SERVICE

CICO maintains a technical division with highly qualified Technical Personnel to investigate and advise on subjects related to concrete and the construction industry. The Division will advice on the correct use and selection of right products at the right place.
CICO undertakes Consultancy Service for diagnosis and rehabilitation of distressed structures.
CICO undertakes jobs as a package for total waterproofing system with guarantee
